ONLINE MARKETPLACE

A platform for Lasallians to bid, steal, and sell their items.

USER FEATURES

Registration

DLSU students may register by entering their unique username, ID number, email, their password, and phone number. A verification email will be sent to their email address after the registration.

Log In

Upon confirming their email, users may be able to log in using their email and their password. They can start posting, bidding, following, etc.

Log Out

The user may log out from their account.

Home

On this page, a registered user can choose to view all available posts, ordered by the date and time of posting. A search bar can also be found here.

Sort and Filter

The user may be able to use filtering (by budget, number of stars of a user, categories) and sorting (order by date of posting, number of current bids, number of FFs) functions.

Search Post

The user may be able to search for posts using keywords.

View a Post

The user may be able to see the details of a post, such as its name, its description, picture/s of the item, starting price, price increment, steal price, cut-off date and time, mode of payment, meet-up details, number of follows, and the current highest bidder and his/her bid.

View User

A user may be able to view other users' profiles. Here, they may see all the items the user has up for bidding, their username, a brief description about themselves (optional), link/s to their other social media account/s (optional), their user rating, and their contact details.

Leave a Review

A user may leave a star rating and an optional written

review on another user.

Report User

A user may choose to report another user, which would flag the other user for review (offensive or abusive behavior, flaking, defamation, slander, spam, etc). A suspended user may not be able to access their account.

Edit Profile

A user is able to edit their account, such as their contact details, their profile description, link/s to their social media account/s, their profile picture, and their password. However, they cannot change their email.

Post

A user may create a post, where they must include its name, its description, picture/s of the item, starting price, price increment, steal price, cut-off date and time, mode of payment, and meet-up details.

Edit Post

The seller may be able to edit details of their own post, such as the description, and meet-up details.

Delete a Post

The seller may be able to delete their own post unless there is already a bidder.

Bid

A user can bid on a post, which increases the previous bidding price. This would automatically make them the highest bidder for that post. That post will also appear on the user's FF page, and cannot be unfollowed. No user may be able to bid after the cut-off.

Steal

A user can 'steal' on a post, which would automatically make them the buyer for that post. Other users may not be able to bid once this is done.

General

Good user experience. Visitor can easily navigate without help, all information are easy to access. Good visual design. Design suits the theme of the application, and is cohesive and consistent across the whole application.

ADMIN FEATURES

Suspend User

Flagged or reported users will be reviewed by the admin. The admin will be able to suspend the flagged user if there is sufficient proof the user has violated the community guidelines.

Delete Post

The admin has the ability to delete offensive and/or inappropriate posts.

REMOVED FEATURES

FF

A user may leave a follow on a certain post.

FF page

All of a user's followed posts can be viewed on this page, which can be accessed from the menu bar. The posts are divided into two: open and closed biddings. Open biddings are those posts that are still available. Closed biddings are those that already have winners or are past their cut-off. This is where the user can check if they have won biddings.
